Didsbury Concert Hall

Saturday, August 13th

MARY PICKFORD

IN

"POLLYANNA"

Admission 35c and 50c

Didsbury Concert Hall

Free balloons will be given to every boy and girl attending the Didsbury Exhibition.

It will do you a lot of good to be a member of the Agricultural Society.

Among the week end visitors to town was Mr. Jimmy Hinton. Who's the attraction Jim.

Remember the Fair dates—Aug. 23rd and 24th.

AROUND THE TOWN

Mr. and Mrs. A. G. Studer returned from Sylvan Lake last Friday.

Miss Ara Weber is back on the job after visiting in Calgary and the Waterton Lakes.

Mr. and Mrs. Alex Guy and son left for a visit to Vancouver, Victoria and other B. C. points on Saturday.

Mr. A. B. Claypool, member-elect for the Didsbury constituency, was a visitor in town on Saturday.

Misses Nora Campbell and Vera Semmler are getting in their holidays at Sylvan Lake.

Miss Ruby Weber of the Union Bank staff left for the Coast for her holidays.

The Fellow who is pulling on the oars hasn't time to rock the boat—KEEP PULLING.

Miss Rita Cummings of Edmonton is visiting with her sister Mrs. W. Hillyard for a few days.

Mrs. J. Klafelt and son Edgar left on Saturday for a motor trip to Hanna where they will visit for a short time.

Miss E. McClintock and Mr. C. McMillan of Calgary were week end visitors with Mr. and Mrs. R. P. Croshaw.

Mr. O. W. Handberg and little daughter Doris of Oyma, B. C. is visiting with Mrs. D. E. Omond and other friends and relatives in the district.

The Carletons have now holding a dance on Friday evening, 12th of August. The people of Didsbury and district are requested to a hearty welcome. Good music.

Mr. J. J. Seal, of the local C. P. R. staff has been promoted to telegraph operator of train service and will take charge at Morley for a short time.

Mrs. A. Zimmerman and Miss Olive Zimmerman of Calgary, mother and sister of Mr. W. O. Zimmerman arrived here on Saturday for a visit with Mr. and Mrs. Zimmerman.

Mrs. S. Johansson has taken the place as assistant postmistress with Postmaster Hunsperger. Mrs. Johansson has had considerable experience in post office work.

Mrs. I. H. Kivimäki, ex. 4th vice president of Didsbury who went to the southwest of town, arrived here on Saturday to spend a few days with Mr. and Mrs. Wm. Hunsperger.

The Knox Presbyterian Sunday School will hold their annual picnic at Tonis Lake on Friday next. Cars will be at the church at 10 o'clock to take out the children attending the picnic and they are asked to bring lunches with them.

Mr. and Mrs. Noah Shantz of New Hamburg, Ont. and Mr. and Mrs. Jacob Snyder of Waterloo, Ont. are visiting with Mr. and Mrs. McShantz and other friends and relatives in the district.

Through an error in our columns last week, a meeting of the W. C. T. U. was announced to take place in the home of Mrs. Harry Ahlbeck on Thursday this week. This should have read the Women's Institute will meet at the home of Mrs. Matthews.

Mr. A. Alexander who has been away for some weeks at Chilliwack and Vancouver, returned last week and had to undergo two operations in the Vancouver hospital is now getting along fine.

Roland, the eleven year old son of Mr. and Mrs. J. W. Brown, of the Neepawa school district, who was run over by a bus, was found with broken leg and neck and his body bruised up a short time ago is progressing favorably towards recovery. It is not thought that he will be harmed although it will be some time before he is able to get around much.

Saving \$1,000

Through trifling economies, you can accumulate one thousand dollars in a few years.

By persistently and regularly depositing \$2.00 a week with us—with interest at 3%, compounded semi-annually—you will have \$1,211.43 to your credit in ten years.

SOLE DEALER

J. Hulse's ad on page 3 this week contains some great news for the ladies. Look it up.

The Hub Grocery are advertising some great bargains in groceries on the last page of this issue. This list takes the place of their usual price list circular and it is to be hoped that our readers will take advantage of the bargains quoted as well as demonstrate the fact that the Pioneer is a good advertising medium.

CAMPING IN COMFORT

All the comforts of camping, with none of the drawbacks of having to prepare meals, etc., can be enjoyed during a visit to one of the Canadian Pacific Camps located on Lake Wabigoon, Lake Windermere, B. C.

There appears to be some apprehension as to these camps, for they do not consist of tents, but of four or more cabins for sleeping quarters with a central club house containing combination dining and living room and necessary kitchen facilities.

There is accommodation in each Camp for fifty people and the locations are ideal for anyone wishing to enjoy a quiet holiday in the great outdoors, where hiking, riding, fishing, boating, etc., can be indulged in to the heart's desire.

NOTICE TO CREDITORS AND CLAIMANTS

In the estate of Martin Rodney, of the Town of Didsbury, in the Province of Alberta, Farmer, deceased.

Notice is hereby given that all persons having claims on the estate of the said Martin Rodney who died on the first day of November, 1921, are required to file with the undersigned Administrator of his estate by the 30th day of September, 1922, a full statement duly verified, of their claims and any securities held by them, and that after that date the Administrator will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been filed or brought to his knowledge.

Filed this 8th day of August, 1921.

Importation Of German Goods

The agitation of importers of German goods against the provision proposed in his budget speech by Sir Henry Drayton, Minister of Finance, that Canadian Customs shall disregard any depreciation in foreign currency greater than 50 per cent, was commented on in a recent interview with the Senior British Trade Commissioner, Capt. E. J. Edwards, of Montreal, with the remark that the prevention of imports of German goods at ruinous prices appeared to be just the aim in putting forward this provision. The German goods being brought in are, moreover, largely goods which are also manufactured in Canada, such as drygoods, felt, shoes, etc., not to mention other things, such as cutlery, manufactured in the United Kingdom.

"In allied and neutral countries the belief is general that German banks and other financial interests are artificially depressing their rate of exchange," said Capt. Edwards, "with the object of procuring imports into their country, and assisting them to build up their export trade again at the expense of the rest of the world."

"It is contended by these importers that prevention of German imports will increase the depreciation of the Canadian dollar, by forcing more purchases from the States. Fifteen months ago German imports only totalled \$2,502, but a year later, in February last, the figure jumped to \$22,757. For the 11 months ending February, 1920, German imports (from Canadian Government figures) totalled \$29,048, but for the 11 months ending last February they had made another enormous jump, to \$895,380. Despite the jump, these figures are still insignificant against Canadian trade with the Mother Country or the States, and I cannot see how Canadian currency will lose in value because German goods are prevented from being dumped at artificially low prices. Such goods as Canada must import can be obtained within the Empire to Canada's better financial advantage than from the States."

"It seems to me it is a question of the Canadian public supporting their own and British manufactures against German ones," said Capt. Edwards, "and I have no doubt as to their preference. Sir Henry Drayton declared that to prevent financial ruin Canada must purchase more of her own and British manufactures, a statement I thoroughly endorse, and I am sure he did not think it any wiser to import German dumped goods than those of the United States. When Germany realizes the impossibility of exporting goods at sacrifice prices I believe she will quickly straighten out her financial methods, until her currency becomes normal and Canada, in common with other countries, can trade with her on a fair basis."

To Protect Livestock Trade

No Animal May Be Shipped out of Dominion Without a Certificate of Health.

The efforts of the Dominion Department of Agriculture to secure a clean bill of health for Canadian livestock have been unusually successful, it is asserted by officials of the department. No animal, alive or dead, and no product made from the carcass of an animal, may be shipped out of the Dominion without a certificate of the Health of Animals Branch of the Department of Agriculture. These certificates have to be shown and verified both at points of departure and arrival.

Many Agricultural Publications

During 1919 the publication branch of the Department of Agriculture circulated 2,562,830 publications. This total was made up of 15,719 reports, 243,314 bulletins, 71,291 reasonable hints, 117,692 pamphlets, 104,133 circulars, 27,658 leaflets, 922,316 announcements and 64,745 agricultural agencies, in addition to posters and mailing lists.

B.C. Lumber For Chili

The first consignment of lumber to Chili for many years left Vancouver recently, being shipped by T. S. McCarty, Harbor Commissioner for Vancouver.

The Spirit of Adventure

Mysteries of the Unexplored Places
Ever Beckon the Adventurers.

The bare catalogue of the hopes of the Shackleton expedition may well tempt high-spirited boys into running away to sea, and may turn old men into wistful youths. For what are scholarship examinations, or the counting-house, or even the comfortable armchair that they should not be as dust and ashes compared with the quest for petrified forests, lost islands and submerged continents? Are not whales and fur seals, unknown birds, the mystery of the Antarctic ice, and lone rocks to serve as wireless relays, better than the dull duties of a bank? Sir Ernest has no vacancies; his old and tried companion have hurried to his call. There is nothing for us but to wish him good luck and to look forward to the joy of reading his stories.—London Times.

YOUNG LADIES, READ THIS

If you are bothered with pimples, rashes and ugly blotches on your face, if your complexion is sallow, it's an evidence that you require Dr. Hamilton's Pills to tone up the blood. One of these pills will regulate your bowels, make a complexion like peach bloom, cheeks soon become rosy, eyes brighter, you will feel the picture of health, look and feel well because you use Dr. Hamilton's Pills of Manly, N.Y., and the Pills of Manly, N.Y., or The Cataractine Co., Montreal.

War To End Officially

Setting of Date Will Mean Much to Business.

The date for the official termination of the war, except in regards Turkey, will be September 1.

Under the termination of the present war act the war could not be declared officially ended for Great Britain until all the peace treaties had been ratified, but it has been decided that the treaty with Turkey might be ignored. The last of the other treaties, that with Hungary, was ratified in Paris recently.

The setting of the date for the official end of the war will pave the way for the settlement of financial transactions outstanding between the Bank of England and the stock exchange and will mean much to certain lines of business.

Hiccup Epidemic Prevalent

Don't get the habit of hiccups—stop the slightest attack at the beginning. Nothing brings such magical relief as slowly sipping a few drops of Nervine in sweetened water. For stomach pains, bloating, cramps, diarrhoea, nothing will prove more useful in every home than a 35 cent bottle of good old Nervine.

Scatica, say the medical scientists, may be caused by the habit of sitting perched on the edge of a chair.

Asthma's Victims Relieved. To overcome a severe case of asthma try Dr. J. D. Kellogg's Asthma Remedy. Its splendid record is its highest recommendation. By relieving the air passages and restoring natural breathing it effectively aids Nature in combating this distressing and dangerous ailment. To many thousands of Asthma's apparently confirmed victims, the healing forces of Dr. Kellogg's Asthma Remedy have brought relief.

Because a girl refuses a young man you needn't suppose it's a sign that she isn't going to marry him.

Minard's Liniment Relieves Neuralgia

Farthest North Police Post

R.C.M.P. Post is Now Established in Extreme North of Baffin's Land.

A new farthest north R.C.M.P. post has been established at Pond's Inlet in the extreme north of Baffin's Land. This is now the most northerly post held by the force of scarlet riders, the nearest to it being those at Chesterfield Inlet and Cape Burwell at the entrance of Hudson's Straits. A sole staff sergeant will be full police authority at Pond's Inlet and will have full charge of customs and judicial control of Baffin's Land and the territory about it. Only a few Eskimos are to be found there and it is the occasional part of call for traders.

Minard's Liniment for Burns, etc.

Tanlac Does Just What People Say It Will Do, Declares Calgary Man

"I will never miss a chance to say a good word for Tanlac, especially to my own comrades, many of whom I know are in the same condition I was in after I came out of the trenches," said A. Reff, 1507 Eleventh Street, West, Calgary, Alberta, agent for the Prudential Life Insurance Co., who served in France with the Twenty-Eighth Battalion of Resins.

"I came home from France suffering from stomach trouble, shattered nerves and with my blood in such bad shape my face was covered with pimples. I didn't have any appetite to speak of and I lost weight until I was almost as thin as a rail. What

little I did eat would form gas that bloated me up till I suffered hours of misery.

"I was under treatment and constantly took medicine, but nothing reached my case except Tanlac. I am in tip-top condition to-day, with a big appetite, perfect digestion and nerves that are steady as steel. My blood has cleared up, too, and I am just brimful of life and energy. I feel fine. I am not surprised that people talk about Tanlac so much, for it does just what they say it will do."

Tanlac is sold by leading druggists everywhere.

French-Canadian Settlers

French Farmers From New England States to Farm in the West.

Forty French Canadian settlers, with their families, arrived in Winnipeg recently en route to farms in the Saskatchewan and Edmonton districts. They came from the industrial centres of New England States, to which they had migrated from Eastern Canada before the war. Most of them were farmers at one time, and they are repatriating to resume their former occupations.

SUMMER COMPLAINTS KILL LITTLE ONES

At the first sign of illness during the hot weather give the little ones Baby's Own Tablets or in a few hours he may be beyond aid. These Tablets will prevent summer complaints if given occasionally to the well child and will promptly relieve these troubles if they come on suddenly. Baby's Own Tablets should always be kept in every home where there are growing children. There is no other medicine as good and the mother has the guarantee of a government analyst that they are absolutely safe. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Manitoba Beekeepers Are Prosperous

Return of \$1,500 in One Season From Thirty-three Hives.

The beekeeping industry is making rapid headway in Manitoba and the outlook for a large honey crop for this year is very bright. Beekeeping demonstrations are being held at different places in the province. In the Swan River Valley in Northern Manitoba, J. C. Dodge reports a return of \$1,500 in honey in one season from thirty-three hives. A settler at Dominion City reports that from a stray swarm that came to his farm six years ago he now has seventy-six colonies and has sold over two tons of honey at 35 cents a pound.

Miller's Worm Powders destroy worms without any inconvenience to the child, and so effectively that they pass from the body unperceived. They thoroughly cleanse the stomach and bowels and leave them in a condition not favorable to worms, and there will be no revival of the pests.

Western Wool Grades Well. Alberta range wools are grading out with exceptionally good handling and spinning qualities and are attracting favorable attention by many Canadian mills. Sheep shearing in Southern Alberta is completed.

A safe and sure medicine for a child troubled with worms is Mother Graves' Worm Exterminator.

The Germans prepare an excellent substitute for tea from the common strawberry plant.

Will Replace Obsolete Vessels With Battle Cruisers of Hood Type

Announcement Made That Policy Cannot Be Construed As A Challenge to Other Nations.

London.—Discussing the naval estimates in the House of Commons, Lieutenant-Colonel L. S. Amery, parliamentary secretary of the admiralty, announced that the four replacement ships the government proposed to build would be battle cruisers of the Hood type armed with twelve guns and designed to obviate the need of larger destroyers than at present exist. He declined to say how many guns they would carry on the ground that it was not customary to give such information in advance.

Contending that there was no element of challenge or provocation in this policy of replacing obsolete ships, Colonel Amery said it was simply a policy circumscribed within the narrowest limits and postponed to the very last date consistent with the empire's safety.

Alluding to the building programmes of the United States and Japan, Colonel Amery argued that the

admiralty, by proposing the completion of only these four ships by 1926, was laying itself open to the charge of accepting the risk that the British navy would temporarily be inferior in strength to the navies of other powers, but the government was facing this risk in order to avoid any step tending to invite fresh competition on the eve of a conference for disarmament.

The object of the disarmament conference, Colonel Amery said, was to endeavor to secure by agreement no further expansion of the navies of the three greatest naval powers, but as it was quite unlikely that the other powers participating in the conference would offer to scrap the ships already built or under construction, it was obvious that the building of these four ships, or even twice their number, could not in any way affect the problem before the conference.

Stockmen Want Assistance

Free Entry of Stock to United States Is Urged.

Calgary.—The present conditions of the livestock industry in Western Canada was the subject of an address by C. W. Peterson, president of the Farm and Ranch Review, at an emergency meeting of the Calgary Board of Trade. The speaker pointed out that every person in Canada had a vital interest in the development of a successful livestock industry; it was the basis and foundation of the entire agricultural structure, he declared.

Mr. Peterson urged that immediate diplomatic discussions should be opened with the United States in order to procure for Canada free entry for animals and animal products. Even an unlimited overseas market, he said, could not for a moment be compared with free access to the Chicago market, which could completely absorb all classes of livestock.

"We are facing an acute situation almost amounting to a panic," he said, "and immediate action is necessary to cope with it."

Rust and Saw Fly Harm Crops

Considerable Damage Has Been Done In Some Sections.

Ottawa, Ont.—Rust and the wheat stem saw fly have caused considerable damage in some sections of the western wheat fields, according to reports on crop conditions at the end of July. In some sections the anticipated yield has shrunk considerably owing to the hot dry weather, but at other points late rains have insured a heavy yield. Crops will not be uniform, some sections having a bumper yield and others a disappointing one. Harvest is unprecedentedly early owing to the warm and, in some places, very dry weather during July.

Serious Fires in New Brunswick

Over One Hundred People Are Rendered Homeless by Conflagration.

St. John, N.B.—Over one hundred people have lost their homes and general property damage estimated to be over \$300,000 has been caused by a series of big fires in various parts of New Brunswick during the past week. The fires mostly burned themselves out because of the dryness of the buildings and the water shortage owing to the prolonged absence of rain.

Famine Condition in Russia

New York.—Russian homes, which numbered thirty-six million before the war, have practically disappeared, having been eaten by the famished population, it was revealed in Russian newspapers published in Moscow and received here by the American relief administration.

Meat has grown so scarce, more than a month ago, that it rationed only to hospital patients. Classes in Moscow University were dismissed because they were too weak from hunger to continue their work, the papers said.

The Life of Ne-Gua-nan-I-sew

By O-GE-MAS-ES (Little Clerk).

(Copyright)

Such a handsome, good natured, bright young Cree Indian when he first traded with me in 1884 and we soon became fast friends and called one another Neshtow, meaning brother-in-law, an Indian term of affection. He camped at my house a number of times and was the delight of my young children in fact he always had an interested audience of old and young when telling Indian folk tales of the beginning of things, most of which I regret to say I have forgotten. How the loon received its handsome coat and power of diving, and the beaver was granted almost human powers of intelligence. In regard to the beaver it was a tradition amongst the Cree that at one time they were human beings but having offended the Great Spirit, lost of speech and the human form was taken away from them. Then there was a history for the bear, wolf and worst of all criminals amongst animals, the dreaded wolverine who is the terror both of the white man and the Indian trapper.

Neshtow at this time, so he graciously informed me, was very much in love with a pretty Indian maiden called Tannis, a daughter of the South Wind, and on his visits to my trading store I could tell at once if the course of true love had been running smoothly or not, by his good spirits or the reverse. It appeared there was a rival named Ah-sag-wen who, though a good deal older, was much better off in this world's goods, and consequently appealed more to the young girl's mother. His appearance, however, did not appeal to Miss Tannis at all, as owing to the birthing of a gun his chest had been broken which gave him a sinister expression, and further he was a dour-natured Indian at the best of times, in fact a complete contrast to sunny tempered Neshtow.

My South Wind, however, like many mothers, was anxious to see her pretty daughter make a good match so there was the opposition of the parents to contend with. Tannis, however, finally brought matters to a show-down by telling Neshtow if he was a man at all they must elope as she positively refused to consider marrying Broken Face, as the rival was commonly called. He came in and told me the whole story and asked what I would do under the same circumstances. Why, take the girl of course, was my reply.

It was the height of the berry season and all the Indian women were busily engaged in picking and drying Saskatoon berries for winter use. The plan was arranged that Tannis was to steal away from her comrades and meet her sweetheart at a place selected, he to have two ponies there. Everything went off smoothly and some days afterwards the newly married couple came on a visit. There was no wedding ceremony, my dear reader, as these were both Pagan Indians; simply living together made the

bond quite as secure; in fact, why much more secure than many white weddings. Tannis made a very pretty bride and, in fact, they were a handsome couple, but as yet did not even own a home in the shape of a tepee, so they had simply spent their honeymoon like our first parents in the open air of heaven. Neshtow finally appealed to me for some advice, notably sufficient to make a tepee, and then various other necessities. Thought my stock of trading supplies was very low at the time I could not refuse, and advanced them debt to a moderate extent, all of which eventually was repaid.

Time went on and in due course a baby arrived and this proved the means of reconciliation with the old folks who, being so much older, were extremely old and could not help liking her husband (as everyone did) for his sunny bright ways. He was not a star hunter by any means but a most cheerful worker, and his little mate being very tidy it was a pleasure to visit and camp in their well kept tepee. The little grandchild lived and thrived for a year or so and then died, much to the grief of all the relatives. The medicine man had used all his remedies, but in vain, without effect, and they finally brought the child to me, but my medical skill was not sufficient to diagnose the disease. No less than three children were born to this young couple in the next four or five years, all of whom lived and thrived, even now, and so, the family died.

In vain were Pagan rattles and offerings to appease the Mutchi-Manitou (Evil Spirit) and the young parents became very sad and despondent, thinking they were under an evil spell.

With the last baby they lost I had them camp close to my house when the child was about six months old, and after much persuasion made the mother wear the babe and bring it up on cow and milk diluted and some other infants food which my wife had procured. Alas, it all led to the same result, and when they both came into me with their hair dishevelled, their faces blackened, and literally in soot, cloth and ashes, my heart went out to them in great sympathy and we wept together.

It is one of the saddest things to live alone in the wilderness and to be unable to help in times of severe illness, when one realizes with the resources of civilization precious few might be often saved. Not only when sympathizing with poor Neshtow, but when my own family needed better medical attention than I could give them I took a vow and it was this: That if ever a town grew up in the vicinity of my land there were two things I would try and get built as soon as possible. First, a church for his worship of the only true God, and then a hospital. I am thankful to say I have lived to see them both established.

(To be continued)

Germans Will Help

Ready to Assist Transport of Allied Forces to Upper Silesia.

Berlin.—The French and British ambassadors and the Italian chargé d'affaires delivered to Foreign Minister Rostow on behalf of their respective governments, the note asking the German Government to take requisite steps to facilitate the transport of Allied troops across Germany. The note declares that the situation in Upper Silesia might at any moment render the sending of troops necessary. It was learned later, on good authority, that the Foreign Minister informed the Allied representatives that the German Government stood ready to accede to the demand and would confer with the Minister of Communication regarding the transportation of the troops.

Lays Eggs In Air

London.—Two crates of valuable chickens which left Orpington, Kent, recently at 9 a.m. were rushed to the air station at Croydon to catch the 10 a.m. air express to Amsterdam. At Amsterdam they were found that two eggs had been laid during the journey—the first case on record, it is claimed, of eggs having been laid in the air.

Want Ulster in Peace Plan

Causing Delay in Reply of Sinn Féin to the British Government.

London.—A dispatch from Dublin to the Press Association confirms the statement made in Dublin that the delay in Sinn Féin reply to the British Government on the Irish peace proposals is due to the fact that an attempt is being made to secure the admission of Ulster to the peace plan. The dispatch expresses the belief that, provided Ulster was disposed to adopt the attitude of give and take, the Sinn Féin would be willing to accept the government's proposals.

The attitude of Sir James Craig the Ulster premier, says the Press Association, appears to be one he is prepared to enter the conference in London but that until such a conference is arranged, he is not called upon to participate in the present deliberations.

Three Men Killed.

Patterson, N.J.—Three men were killed and three seriously injured in the Standard Silk Dyeing Company's plant when an extractor on a "whizz machine" with driving silk flew to pieces. The whirling apparatus whirled the nearby workmen with hundreds of scraps of bronze and iron.

Railway Wage Question

President Hanna Opposed to Submitting Matter To Conciliation Board at Present.

Ottawa.—Claiming that the time is not opportune for the submission of the question of wage reductions, as affecting the employees of Canadian railways, to a board of conciliation, President D. B. Hanna, of the Canadian National Railways, has notified the Minister of Labor that the management of the National Railways cannot agree to invoking the Industrial Disputes Act for that purpose. Mr. Hanna has pointed out that the agreement which the men have been asked to concur in is only tentative and is subject to revision. He suggests that if the usual meetings and conferences consequent upon permanent schedule adjustment, fail to bring an agreement on the question, it might then be necessary to resort to some form of arbitration.

Bush Fires Clear Settler's Land

Made Work of Removing Brush Moderately Easy.

Cobalt, Ont.—According to a settler along the main line of the Canadian National a few miles west of Cobalt, the recent bush fires there were not altogether an evil. The conflagration, while destroying his buildings and hay crop, made the work of clearing an easy proposition. "At present prices the cost of clearing one acre of green bush runs close to \$200, but after the fire, when the trees had been felled and killed, I could up and two and a half acres for \$20. Generally speaking a good burn allows the settler in moderate circumstances to go ahead and remove the bush, whereas it would be impossible to do so without a fire," the settler said.

Sweden Wants Canadian Wheat.

Vancouver.—That Sweden is beginning to take an interest in Canadian wheat exports was evidenced in a letter enquiring into the possibilities of Sweden importing wheat from Canada, from Emanuel Colleen, broker, of Stockholm, received by the Vancouver Board of Trade.

Spend your money at home, thereby helping your own town and local merchants.

May Reduce Freight Rates

Montreal.—That the Board of Railway Commissioners of Canada will in the near future take steps to reduce the freight rates on Canadian railways, was the announcement contained in a letter received by the local board of trade from Hon. F. B. Carvell, the chief commissioner.

The Montreal Board of Trade recently addressed a resolution to the railway commission asking a reduction on railway freight rates commensurate with the 12 per cent. cut in wages now in effect.

LIME IN AGRICULTURE

The use of lime in proper quantity, in proper quality and at the proper time will prove beneficial to most crops. Used otherwise its effects are the reverse. That there may be no lack of knowledge on the subject there has been issued by the Department of Agriculture at Ottawa a revised edition of a bulletin entitled "Lime in Agriculture", in which the

Dominican Chemist, Dr. P. T. Shutt, has dealt comprehensively with the subject. From this bulletin it is learned that there are several classes of lime, such as quick lime, burnt lime, caustic lime, stone lime, etc., also that limestone of excellent quality is to be found in many parts of Canada, especially in the East and at some points in British Columbia. Some exists in Manitoba in the vicinity of Lake Winnipeg and Winnipegosis. Otherwise there is none available on the prairies. What is known as lime kiln refuse is sometimes sold as "Agricultural Lime," but the advice is tendered that purchases should be made only on analysis as to the percentage of quick lime, carbonate of lime, etc. present. The chief objects of the application of lime, or carbonate of lime, are the neutralization of sourness and the

improvement of the mechanical condition of soils. The characteristic of the soils that should be treated are pointed out and the influence of lime explained. The comparative values of the different kinds are set forth as well as the methods of application. Attention is given to the use and misuse of lime and to the various detailed experiments. A table shows the composition of limestone found in fourteen places in New Brunswick, nine in Quebec, six in British Columbia, nine in Nova Scotia and ten in Ontario. Prince Edward Island is also shown to have deposits.

DIDSBURY FAIR is one of the best in the Province—be sure to attend it.

Good Work of Women's Institutes in Didsbury Constituency

This constituency comprises seven institutes with a total membership of about 178. No new branches have been organized during the year, and five visits have been made.

A constituency conference was held at which the speakers were Mrs. Harold Bayley, an English journalist; Mrs. A. H. Rogers, our provincial secretary, and Mrs. Deardrich. Each institute was also addressed by Miss Noble during the year.

Three Hills, on account of illness of the president and some of the leading members, had no meetings from spring until December, but have resumed activities and are discussing a municipal hospital.

Carstairs sent clothing to the Children's Shelter, Olds, and the Leacock Home, Midnapore; gave a banquet in aid of the hockey team; organized a girls' club; held a child welfare demonstration, assisted by Mr. Bishop, the local clergy, and the doctor; are endeavoring to equip their school grounds with swings, fountains and sand boxes; are studying Canada, its government and not all men, and are planning all children's experience meeting.

Built a Hall

Manitoba View has been exceptionally busy. Last year they decided to build a community hall, which has proved to be a big undertaking. They have already paid \$1,316.92 and still owe \$800. This does not include, finishing. They raised their money by box socials, dances, whist drives, quilting for anyone wishing it, making selling raffish quilts, one of the latter netted \$135; by giving a chicken supper, and by holding a bazaar. They paid \$300 for a piano for their community hall. Their lunch money is used to buy flowers for the sick.

Help Crippled Child

Didsbury spent much of its time in aid of the little cripple boy they sent to Winnipeg Children's hospital last year. They paid \$583.67 for him this last year, making in all about \$700, and now his mother has

insisted on having him home and the good that has been done is fast being undone—another case which proves the need of a "home for incurables."

They sent \$105 to the Red Cross for stricken Europe; sent eight boxes of books and magazines to Peace River; gave a Christmas box of \$10 to an old man and his wife; sent fruit, meat and vegetables to the Didsbury Hospital. They made themselves money by "Tag Days" at the fair, at which they sold ice cream, soft drinks, lunches, fruit and balloons; by lunch collection and birthday gifts. They had a Grandmother's Day.

Westward Ho has been working for the school. They purchased plates, cooking utensils and tea, crediting to add to the hot lunch equipment. They gave \$10 to the Red Cross; had a demonstration in counselling devices and exchanged patterns.

Held a Cake Contest

Rugby held a cake contest, also a house dress contest; dresses were worn to the May meeting to be judged. Prizes were given for both: gave two showers for the Didsbury hospital, chicken, butter, eggs, vegetables and canned fruit were brought; paid \$18.60 toward the hospital bill of a boy in the district, and have arranged to send a small boy to the hospital soon for an operation which has been delayed on account of lack of money; bought a gasoline lamp for Rugby school; gave \$5 to the "Travelers' Aid and the Red Cross fund; sent flowers to the sick and held their annual auction sale and picnic; they purchased a winter outfit for the daughter of a member who had to go to Rochester for treatment, and provided clothing for three needy children.

Having five school districts represented very unevenly and not being able nor agreeable to help all to any extent, recently they decided to organize parent-teachers' associations in as many districts as possible for the purpose of improving the schools and the grounds and of co-operating with the teachers. One has already organized.

St. Elst decided to sew or knit at each meeting to get money to buy materials. The articles made are sold to the members. They supplied eggs and flowers for their patients in the Didsbury hospital; they held a demonstration in cheese making; served dinner at the Elton stampede held by the U. E. A.; gave a supper for the Elton school children before their Christmas tree, and put a present on the tree for each child; paid \$15 to the doctor for medical treatment for a small boy; gave \$30 toward the hospital fees of another

boy, besides buying clothing for him; held a clean-up and repair day at the school, assisted by the men, and made basketball grounds.

EXPERIMENTAL AND RESEARCH WORK IN GRAIN AND FIELD CROPS

Experimental and research work promoted by, and under the guidance of, the Dominion Department of Agriculture, has made great strides in Canada during recent years. It is estimated, for instance, that the discovery of Marquis wheat by the Cereal Division of the Experimental Farms Branch has enriched the wheat growers of the three prairie provinces by \$20,000,000 annually, and that the introduction of Preston, Stanley and Huron wheats into the other provinces has brought about a gain of at least half a million dollars yearly. But wheat is not the only grain that has profited immensely through the work carried on at the Experimental Farms. By the introduction of Daubeny, Victory and in particular Banner oats, a gain has been made of over \$5,000,000 annually, while other new grains such as barley, flax and peas, have proven responsible for an increase in value of \$3,000,000 annually. All of these gains and will develop in still greater profits to the country. Experiments in plant breeding work with garden and field crops have led to the discovery of many new varieties, such as the Melba apple, Early McIntosh corn, Alacrité tomato, etc. Hardy varieties of tree fruits have been grown of good growth in the Prairie Provinces, while some valuable discoveries have been made in forage crops, notably a perennial clover. Immensely valuable research work has been done by the Division of Chemistry, and by the Division of Botany, and by the Health of Animals, Entomological and Seed Branches. Canada has been shown to be the healthiest of all countries in live stock, a fact which must be attributed in large measure to the excellent system of supervision and control adopted and followed by the Health of Animals Branch. By its precautionary measures and other activities it has conservatively calculated the Division of Botany has saved the country \$22,000,000 annually, largely by its crusade against smut and its control of late blight and rot of potatoes and other diseases to which plant life is subject. Research work in its laboratories by the Seed Branch has resulted in approximately 100,000 tons of screenings being made of maximum value to the live stock feeder and this is but one of the profitable results that have been achieved. Turning to the Entomological branch, when it is stated that to field crops

alone a justifiable estimate is that the depredations of insects cause a loss each year of \$125,000,000 some idea of the colossal work involved can be formed. In field husbandry, by the greater use of crop rotations and the ascertaining of the most profitable rotations for each district, it is estimated that Ontario is benefited annually to the extent of \$22,000,000 while by summer following, a system urgently encouraged by the Experimental Farms Branch, the Prairie Provinces are to gain \$90,000,000 annually. These few facts will illustrate the advance that is being made in the development of Canadian agriculture.

A CELEBRATION

A large crowd of young people gathered at the home of Mr. and Mrs. A. P. Bennett, to celebrate the birth-day anniversaries of Mr. Brockville Bennett and Miss Alice Hagan, two popular young people of Elkhart, several guests from Didsbury were present. The young folks tripped the light fantastic until daylight did appear, when, tired but happy, they departed for their homes, all declaring they had enjoyed themselves immensely.

DIDSBURY SPORTS

C. E. Reiber, Secretary.

Bad Storm Strikes Didsbury

A terrific electrical storm struck town last Friday Morning early. The electrical display was magnificent but rather hard on the nerves. The lightning, being especially sharp and close. The electric light plant in town was struck but no serious damage was done and the lights were only off one evening. A very heavy downpour of rain and hail accompanied the storm and considerable damage was caused by hail west of town. The following farmers sustaining a loss: M. Oliver 75 per cent; V. Vipond, 25; E. Braun, 40; E. Krebs, 20; H. Whitteier, 20; S. Helmgut, 20; M. J. Jacobson, 20; B. M. Brenner, 10; H. Dagefide, 40. These losses were reported by J. Phillipson.

World Happenings Briefly Told

A new telephone transmitter, held to the throat instead of the mouth, eliminates outside noises.

There are now 599 newspapers and periodicals published in the province of Ontario, as against 745 before the war.

Machine botting at Brigantine Park, Vancouver, this year will be supervised by the Royal Canadian Mounted Police.

Nelson, B.C., city council have established a municipal motor camp, equipped with shade, electric lights and cooking facilities.

Canada has the largest forest in the world. It is in the Labrador and Hudson Bay district, and is, roughly, 1,000 by 1,200 miles.

Resumption of diplomatic relations between France and the Vatican have been formally effected after a break that has existed since 1904.

The 19,300 ton liner, *Tipitzi*, built in Germany during the war and completed shortly after, has been purchased outright by the Canadian Pacific Railway and will be added to its Pacific ocean fleet. She will be renamed the *Empress of China*.

THIS WOMAN'S RECOVERY

Shows Remarkable Restorative Power of Lydia E. Pinkham's Vegetable Compound.

Chesley, Ont.—"I have been using Lydia E. Pinkham's Vegetable Compound for a total of two weeks. I had terrible pains in my sides and was not regular. Finally I got so weak I could not go up stairs without stopping to rest half way up the steps. I tried two doctors but they did me no good. I saw your medicine advertised in the newspapers and thought I would give it a trial. I took four bottles of the Vegetable Compound and was restored to health. I am married, and the mother of two children. I can do all my housework, milk eight cows, and do a hired man's work and enjoy the best of health. I also feel that Vegetable Compound a great help for my weak back before my babies were born. I recommend it to all my friends who are in need of medicine, and you may print this letter if you wish. Mrs. HENRY JAMES, R. R. No. 4, Chesley, Ontario."

It hardly seems possible that there is a woman in this country who has not had time to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial after all the evidence that is continually being published, proving beyond contradiction that this grand old medicine has relieved more suffering among women than any other medicine in the world.

W. N. U. 1380

An Artist's Luck

Won Valuable Prize When Ill and Without Funds.

Frank Schwartz, twenty years old, trying to make his living as an artist was notified by his landlord that he must leave his stuffy room in a tenement over a saloon in the East Side, New York, unless he paid his rent, \$10 a month. On his way out he met the postman with a letter informing him that he had won the Prix de Rome, offered by the American Academy in the Eternal City. The prize gives him free transportation to Rome, free tuition in art, and an allowance of \$1,000 a year for three years.

The vicissitudes of an artist's life could scarcely be better illustrated. His mother died in Chicago when he was twelve years old, and his father, who was a hotel waiter in the city, left the boy to shift for himself because he insisted upon studying at the Chicago Art Institute instead of going into business where he could make money. It is not known how he managed to struggle along in the interval, but letters found in the boy's apartment showed he was desperate for lack of money. After leaving the army, with which he served in France as a member of the Camouflage Section, he was stricken with pneumonia. He was unable to work. Doctors advised him to leave the city. He could not do so; he had no funds. Then came the notice, sent by the agent for the tenements. And then the prize.—Toronto Globe.

For Catarrh—It is one of the chief recommendations of Dr. Thomas' Electric Oil that it can be used internally with as much success as it can externally. Sufferers from catarrh will find that the Oil when used according to directions will give prompt relief. Many sufferers from this ailment have found relief in the Oil and have sent testimonials.

To Slaughter Buffalo

Said That One Thousand Animals at Wainwright Will Be Disposed of by Government.

Owing to the increase in the buffalo herd at Wainwright, one-thousand of these animals are to be slaughtered. A special building is being erected for the purpose. The buffalo meat will be sent to all points over the country for sale. A strict account is being kept of all heads and skins, which will probably be disposed of by the Dominion Government. The Wainwright reservation contains the last large herd of buffalo in the world, with about 3,000 animals.

Thinks Swearing All Right

Yes, providing the provocation equals the offence of Jones stepping on Smith's sore corn. Far better to use "Putnam's" Painless Corn Extractor, it does last out corns in a hurry. No corn can lift off "Putnam's" is applied. Refuse a substitute, 25c every where.

Advantages of Irrigation

Taber System Will Be Paid For In One Year By Increased Production.

Paying for an irrigation system in one year is the unique experience of the Taber project comprising 17,000 acres, just east of the irrigated area operated by the Canadian Pacific Railway. It cost sixteen dollars an acre to build the ditch and laterals and conservative estimates of the average yield on the 13,000 acres under crop are twenty bushels to the acre as against eight bushels on the dry land adjoining.

This is the first year that the Taber project has been in operation and the results are naturally enthusiastic over its success. The many fields with thirty-five and forty bushel crops are, however, the most satisfactory evidence.

Patronizing Local Industry.

A profitable market for their product of sodium chloride is being developed by the Senlac Salt Company, which is engaged in developing the salt deposits at Senlac, Saskatchewan. A Calgary soap factory is utilizing the product extensively in its manufacture. Instead of importing from Wisconsin as previously, and it is probable the wants of their Winnipeg branch will be supplied from the same source.

Minard's Liniment for Dandruff

PIMPLES ITCHED AND BURNED

Face Was Badly Disfigured. Cuticura Soap and Ointment Healed.

"Small red pimples and black-heads began on my face and my face was badly disfigured. Some of the pimples feasted while others scaled over. They were everywhere where the pimples were in blotches. They used to itch and burn terribly. I saw an advertisement for Cuticura and I tried them. They stopped the itching and burning and I used four cakes of Soap and three boxes of Ointment which healed me." (Signed) Miss V. A. Hayne, Stormont, N. S., Dec. 25, '18.

Soap 25c, Ointment 25c and 50c. Sold everywhere. Cuticura Soap without mail.

Will Build More Grain Elevators. It is announced that Alberta Pacific Grain Company will build a number of new grain elevators in the Peace River district.

FREQUENT HEADACHES

A Sure Sign That The Blood Is Watery and Impure.

People with thin blood are much more subject to headaches than thick-blooded persons, and the form of anemia that affects growing girls is almost always accompanied by headaches, together with disturbance of the digestive organs.

Whenever there are constant or recurring headaches and pallor of the face, they show that the blood is thin and your efforts to suffer from catarrh toward building up your blood. A fair treatment with Dr. Williams' Pink Pills will do it. The pills will remove the headache. More disturbances to the health are caused by their blood than most people have any idea of. When your blood is impoverished, the nerves suffer from lack of nourishment, and you may be troubled with insomnia, neuritis, neuralgia or sciatica. Muscles subject to strain are under-nourished and you may have muscular rheumatism or lumbago. If your blood is thin and you begin to show symptoms of any of these disorders, try building up the blood with Dr. Williams' Pink Pills, and as the blood is restored to its normal condition every symptom of the trouble will disappear. There are more people who owe their present state of good health to Dr. Williams' Pink Pills than to any other medicine, and most of them do not hesitate to say so.

You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from Dr. Williams' Medicine Co., Brockville, Ont.

Against Too Much Production.

Declaring that the present period of depression is due to the fact that workmen have produced too much, and that for this reason employers are requiring their employees to "take a rest," Alexander Howat, president of the Kansas Miner's Union, advised the laborer not to "produce too much or you may produce yourself out of a job" in a speech at Kansas City recently before an audience of laborers.

MOTHERS!

WATCH YOUR TEETHING BABIES

THOUSANDS OF THEM DIE EVERY SUMMER

When the baby starts to cut its teeth, it is the time the poor mother is under the stress of great anxiety. The child's bowels become constipated, and the mother has to cope with many other bowel complaints manifest themselves. The gums are sore, the child is fussy, and in many cases the child wastes to a shadow, and very often dies.

On the first indication of any looseness of the bowels, give a few doses of

DR. FOWLER'S EXTRACT OF WILD STRAWBERRY

and, thus, perhaps, save your baby's life.

For the past 70 years "Dr. Fowler's" has been used by mothers for teething babies so you do not experiment with a new and untried remedy which might be dangerous to your darling's health.

Price, Six a bottle; put up by The T. Milburn Co., Limited, Toronto, Ont.

Charming Frock Of Swiss and Organdie

By Marie Belmont.

Among the sheer fabrics that are greatly liked for the dainty summer dress are organdie and dotted Swiss. When they are combined most charming creations are achieved. The model illustrated is fashioned from white organdie and Swiss that shows pink, yellow and blue dots on a background of palest blue. The latter material is chosen for the deep yoke, which is bound with pipings of white organdie. The lower part of the waist is of organdie. The belt has an inset of the Swiss, while the lower part of the tunic is fashioned from the dotted material.

Time Has Tested It—Dr. Thomas' Electric Oil has been on the market upwards of fifty years and in that time has proved its blessing to thousands. It is in high favor throughout Canada and its excellence has carried its fame beyond the seas. If it were double the price it would be a cheap liniment.

New B.C. Industry.

The National Industries Corporation is about to commence construction of a large manufacturing plant on Industrial Island, B.C., where rivetless sickle blades will be made. Knives will be manufactured for all standard grain and hay cutting machines.

The publisher of the best Farmers' paper in the Maritime Provinces, in writing to us, states:

"I would say that I do not know of a medicine that has improved the rest of time like MINARD'S LINIMENT. It has been an unfailing remedy in our household ever since I can remember, and has outlived dozens of would-be competitors and imitators."

Praise For Lord Byng

London Daily Telegraph Prints Laudatory Article on New Governor-General.

In a laudatory article on Lord Byng of Vimy, Canada's new Governor-General, the London Daily Telegraph remarks that whatever differences there may be between him and his immediate predecessor, both he and the Duke of Devonshire might well be chosen as typical English gentlemen.

"The Dominions inheriting all that is good in our traditions," says the article, "without the material disadvantages of the old world, have perhaps an easier task than we, but within the Empire we are all one people, and no Canadian will watch with more pride the prosperity and happiness of Canada under Lord Byng's governorship than the citizens of the Old Country."

Seaweed does not obtain nourishment from the soil at the bottom of the sea, but from the matter contained in sea water.

Minard's Liniment for sale everywhere.

Think these Points Over with Care

ASPIRIN

Only "Bayer" is Genuine

Warning! Unless you see the name "Bayer" on package or on tablets, you are not getting Aspirin at all. Take Aspirin only as sold in the Bayer package for Colds, Headache, Neuralgia, Rheumatism, Scarlatina, Toothache, Lumbago and for Pain. Then you will be following the directions and dosage worked out by physicians during twenty-one years and proved safe by millions. Handy tin boxes of twelve Bayer Tablets of Aspirin cost few cents. Druggists also sell larger packages. Make sure the Bayer Aspirin is the trade mark (registered in Canada), of Bayer Manufacture of Monoaceticacidester of Salicylicacid.
